PROFILE

Full Stack Developer specializing in modern web applications with Next.js, TypeScript, and React. I build scalable, performant solutions featuring real-time systems, AI integration, and seamless user experiences.

EXPERIENCE

Kakiyo OÜ – Frontend Developer   *Nov 2025 – current*

- Built scalable, optimized frontend features with efficient rendering and maintainable architecture using Next.js and React.
- Designed responsive, accessible UI/UX with seamless navigation across all devices using Tailwind CSS.
- Developed interactive animations and micro-components with Framer Motion to enhance user engagement.

PROJECTS

CappyChat   *Github | Live demo*

- AI chat platform integrating 20+ AI models with web search, reddit search, real-time sync for seamless multi-device use .
- Having advanced features including image generation (text-to-image, image-to-image), voice input, global memory, artifacts generation, and multi-file support.
- Designed a mobile-first, responsive interface ensuring smooth user experience across all devices.

BashIO   *Github | Live demo*

- Natural language to shell command converter with multi-provider AI support (Claude, OpenAI, Copilot, OpenRouter).
- Interactive chat mode featuring real-time streaming, session persistence, theme customization, and keyboard shortcuts for model switching.
- Custom shortcuts system with placeholder variables for frequently used command templates.

Resumate   *Github | Live demo*

- AI-Powered Resume Builder and Optimizer with live editing and customizable templates, build using React JS, Appwrite (storage), Firebase (auth and db), Open AI API and Tailwind CSS.
- Integrated AI for bullet point enhancement, job matching, and ATS compatibility checks.
- Enabled secure profiles and one-click PDF downloads for a seamless user experience.

Skillcompass   *Github | Live demo*

- AI-powered learning platform offering personalized learning paths, adaptive quizzes, and interactive modules.
- Integrated leaderboard, gamified progress tracking, and smart flashcards for efficient skill-building.
- Full-stack development using React.js, Tailwind CSS, Appwrite, Gemini API and Groq API.

SKILLS

Frontend: Next JS, TypeScript, React JS, JavaScript, Zustand, Tailwind CSS, Framer Motion

Backend and Databases: Node.js, Express.js, Appwrite, MySQL, MongoDB, Firebase, Redis

Languages and Tools: C, C++, Java, Python, Github, Vercel, Open Router, Canva, Vercel AI SDK

EDUCATION

Manipal University Jaipur, Rajasthan   *2023-2027*

BTech CSE (IOT and Intelligent System)   *9.75 CGPA*
